Java1: Lesson 6 – Interview

1. Add **summary** at the top, **documentation** at the bottom and **comments** where necessary.
   - Recordings and interviews are an exception, but they should be included in your submission code.
2. **Cite** the source of your information.
3. Refrain from including anything **you don't fully understand**.

1	100 points **5-min challenge: you will get full credit after you reproduce your work during a class or interview.** Write a program that prompts the user to input two numbers, calculates their multiplication, and prints out the result. a. The program should have three separate methods: userInput(), calculation(), printout() b. The main() should be kept as simple as possible. Note: *Explain the code you are writing. *Perform **two consecutive recordings** for each task. *Follow the **standard routine** for each interview. *1. **Share the entire screen** (https://bit.ly/3lNpkJV)* *2. Use only one screen to share (**Win + P** > **PC screen only**)* *3. Display the running programs (**Alt + TAB**)* 4. Get your **IDE (IntelliJ)** ready 5. **Presentation mode** (**Ctrl +** ~ **)** ****Editing** your recordings is considered **cheating** and will not be tolerated.*	
	Sample output	? 3.7 11.5 ---------- 3.7 x 11.5 = ***
