Java1: Lesson 8 – Interview

1. Add **summary** at the top, **documentation** at the bottom and **comments** where necessary.
   - Recordings and interviews are an exception, but they should be included in your submission code.
2. **Cite** the source of your information.
3. Refrain from including anything **you don't fully understand**.

1

100 points

5-min challenge: you will get full credit after you reproduce your work during a class or interview.

Write a program that uses a loop to initialize a 2D array **column-wise** with the data below.

a. The program should have two methods: genArr to generate the array and printArr to print out the array **row-wise**.

Note:

*Explain the code you are writing.

*Perform **two consecutive recordings** for each task.

*Follow the **standard routine** for each interview.

*1. **Share the entire screen** (https://bit.ly/3lNpkJV)*

*2. Use only one screen to share (**Win + P** > **PC screen only**)*

*3. Display the running programs (**Alt + TAB**)*

4. Get your **IDE (IntelliJ)** ready

5. **Presentation mode** (**Ctrl +** ~ **)**

****Editing** your recordings is considered **cheating** and will not be tolerated.*
